Summary

Electronics and Communication Engineering student (CGPA 8.5) who builds and evaluates LLM, RAG and computer-vision systems. Experienced in writing and testing prompts, checking model outputs for faithfulness, bias and correctness, and explaining technical reasoning clearly in English. IEEE-published author and German utility-model holder, seeking AI training and evaluation work as a Handshake AI Fellow.

Education

M.Kumarasamy College of Engineering, Karur **2023 – 2027**
B.E. in Electronics and Communication Engineering *CGPA: 8.5/10*
- Coursework: Digital Electronics, Signals & Systems, Communication Systems, VLSI, DBMS

SPK Matriculation Higher Secondary School **2023**
Higher Secondary (HSC) *Percentage: 83%*

Technical Skills

AI / ML: LLM prompting & evaluation, RAG, LangChain, LangGraph, DeepEval, Gemini, AWS Bedrock, YOLO, ONNX Runtime, ChromaDB
Programming: Python, JavaScript, Java, C, SQL, HTML, CSS
Web & Backend: FastAPI, Flask, Node.js, Express.js, React.js, Next.js, REST APIs
Data & Tools: PostgreSQL, MongoDB, MySQL, SQLite, Supabase, Git, Docker, Vercel, MATLAB, Vivado
Languages: English (professional), Tamil (native), German (A1.1)

AI Projects

M&A Due Diligence Agentic RAG | *LangGraph, GPT-4, ChromaDB, DeepEval* **2025**
- Built a multi-agent RAG system (finance, legal, ops, risk agents) for multi-hop reasoning over documents
- Evaluated LLM answers with DeepEval/RAGAS (faithfulness, relevancy, citations) to catch hallucinations

Neutralis-AI – AI Ethics MCP Server | *Python, MCP, Gemini 2.5 Flash* **2025**
- Built an MCP server that reviews AI conversations for bias, misinformation, privacy issues and harmful content
- Added confirmation-bias detection and weighted pattern learning that improves ethical review over time

SkillSync – AI Resume Filtering System | *FastAPI, Gemini, React, PostgreSQL, ChromaDB* **2025**
- Built a RAG application that screens 500+ resumes against job descriptions using semantic matching
- Added automated email notifications, filtering, Excel export and cron-based batch processing

LoomGuard-AI & SafeSight AI – Vision Systems | *YOLO, ONNX, FastAPI, Flask, Next.js, React* **2026**
- Trained and deployed YOLO models for real-time fabric-defect detection and construction PPE-violation monitoring
- Shipped full-stack dashboards with batch inference, object tracking, analytics APIs and CSV reporting

Internships & Training

IoT in Robotics – Internship Training **Jan 2025**
NSIC Technical Services Centre *Coimbatore, India*
- Built software interfaces for IoT robotic systems using sensor data, APIs and automation logic

Intern – Electronics Manufacturing **Jun – Jul 2025**
Popular Systems *Coimbatore, India*
- Worked on system-level integration and quality-control workflows for electronics, solar and medical equipment

Research & Achievements

- **IEEE Publication** – "Efficient Spectrum Sensing using Energy Detection", ICCNCT 2026
- **German Utility Model (Gebrauchsmuster) Granted** – Smart Fire Survivor Detection System, ID: 20264104647
- TUNARA '26 – First Place, Product Expo; TCS CodeVita Season 13 – Global Rank 7456
- HackIt '25 – 24-hour National Hackathon; Yugam Hackathon participant

Certifications

- Generative AI with Large Language Models – Coursera; System Design Fundamentals – Pearson
- Network Security – NPTEL; The Joy of Computing using Python – NPTEL (IIT Madras)
- Java (Basic) – HackerRank; PCB Basic Design – Altium Education
