Career Objective

Motivated Engineering student with a strong interest in full stack development and software engineering, experienced in building web applications using modern technologies. Seeking a software development internship to apply technical skills, contribute to innovative projects, and gain industry-level development experience.

Education

M.Kumarasamy College of Engineering 2023 – 2027
B.E. Electronics and Communication Engineering *CGPA: 8.5/10*

SPK Matriculation Higher Secondary School 2023
Higher Secondary *83%*

Technical Skills

Languages: Java, JavaScript, C
Frontend: React.js, HTML, CSS, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL, Supabase
Tools: Git, GitHub, VS Code, Docker, Vercel, Render, Eclipse, Vite
Simulation Tools: Vivado Xilinx, LTspice, MATLAB, Altium Designer, ANSYS

Internships & Training

IoT in Robotics – Internship Training Jan 2025
NSIC Technical Services Centre *Chennai*
– Built software interfaces for IoT-based robotic systems and worked with sensor APIs and automation logic

Intern – Electronics Manufacturing Jun – Jul 2025
Popular Systems *Coimbatore*
– Hand-on exposure to wiring and manufacturing for electronics, solar energy systems and medical equipments

Projects

Hotel Management System | Express.js, Tailwind CSS, MySQL 2024
– Created a hotel management application with room booking, user authentication, and admin dashboard functionalities.
– Implemented REST APIs and MySQL database integration for efficient booking and customer management.

Temple Management Application | Node.js, Bootstrap, MySQL 2026
– Developed a full-stack temple management application supporting devotee registration, bookings, donation management, and receipt generation.
– Integrated OTP verification and database management features to enhance security and user experience.

Smart Fire Survivor Detection System | Arduino, IoT 2025
– Designed an IoT-based fire survivor detection system using sensors and Arduino for emergency monitoring.
– Implemented real-time alert mechanisms to send emergency notifications during fire accidents.

Certifications

- Java (Basic) Certification – HackerRank
- PCB Basic Design Course – Altium Education
- German Language Certification (A1.1) – Inlingua
- Network Security – NPTEL / IIT Kharagpur

Achievements

- Patent Filed – Smart Fire Survivor Detection System
- TUNARA '26 – First Place in Product Expo
- ICCNCT 2026 – Presented IEEE Research Paper
- TCS CodeVita Season 13 – Achieved Global Rank 7456
- HackIt '25 – 24-hour National Hackathon
- Yugam '26 – Full Stack Project Presentation
